

## **ONUSS Members Participate in Mathare Cleaning and Tree Planting Exercise**

### ***ONUSS Members Participating in Mathare Cleaning Exercise***

ONUSS successfully organized a tree planting and cleaning exercise at Mathare North. The event was attended by 60 students. The exercise was an outreach charity program aimed at reaching out to the society and educating them on the need of keeping their environment clean. During the exercise, the club created awareness on the need to plant trees, the importance of corporate social responsibility and emphasized on the need of proper waste disposal methods on the people living in Mathare.
